

Irrigation Repair Reimbursement

We are aware that some citizens have repaired leaks directly associated with the irrigation meter installation project. If you would like to be reasonably compensated for your time and materials for such repairs, please contact the City 435-527-4621.

Compensation will only be provided with proper documentation for such repairs and only for repairs directly related to the installation of the meter project. The Public Works Department and/or City Council member along with the project Engineer will meet with individuals to review each situation and provide assistance as appropriate. All claims need to be submitted to the City no later than June 16th at 5:00 pm to be considered.
